2. UNFINISHED BUSINESS/CARRIED OVER FROM LAST MEETING

2.1 Funding request for software from Mrs. Burges-Leon.

Received 15 HP Laptops that don't have windows.

As per Mikes Computers, it will cost \$60 per computer if they already have the certain operating system.

They will be for the education edition of Minecraft to study measurements/dimensions.

We would like more quotes and the exact number of Laptops that have the proper operating system.

3. NEW BUSINESS

3.1 Principal's Report

We were approved for the Aboriginal Student Success Grant for \$3000.

Looking into getting a Cedar Circle garden installed with it. Anything installed onto school grounds needs to meet specs and safety protocols. Hoping to get at least the Key structure done this year then add onto it in the following years. Iain asked for possible contacts of anyone who does this type of work and could work with the school district to build this for Cheam. Also, that other schools are looking into similar projects.

Devry \$1,033

Looking into seasonal based fundraisers.

4. OPEN DISCUSSION

The paving between the portables needs to be redone (possibly in summer?) The playground area where the old picnic tables and tether ball used to be, as well as the older swing set (that cannot be repaired any further) may be a good area to have another playground structure added – Iain envisions. A climbing net structure maybe? Also discussed was the final piece to connect the newer playground. Iain will check for the original playground plans.

5. Meeting adjourned at 8:45pm.

Business carried over:

Mrs Burgeous-Leon funding request, Cedar circle contractor/builder names
